

Our cloud hosting solution provides full time scalable IBM Power compute, storage, and network infrastructure resources needed to run your mission critical workloads on our enterprise class infrastructure. ezHost - IBM Power removes the burden of the typical hardware lifecycle management of on-premise systems by replacing the cost of support, maintenance, system administration, space, power and cooling with a predictable monthly expense. Our ezHost - IBM Power services are backed by a clear and well-defined SLA guaranteeing performance, availability and access.

## SOLUTION DETAILS

- **Enterprise Level Resources** – Always on and able to handle full production workloads. QOS capabilities on the storage and network ensures resources are delivered at the desired performance level.
- **Tier-3 Data Centers** – Meets or exceeds most production environments for security, compliance standards, power and cooling redundancy, fire suppression and communications with 100% uptime.
- **Scalable Resources** – ezHost - IBM Power is designed to seamlessly scale system processor, memory and storage resources as needed. This allows clients to start using a system with lower resources than they would need to purchase in an on-premise system and scale to meet typical client growth over time or from other business changes.
- **OS Support** – IBM i, Windows, AIX, and Linux
- **Security** – ezHost - IBM Power clients are always deployed in isolated environments with strict security controls on network traffic. Options exist for dedicated or client provided firewalls and security appliances.
- **Communications** – All ezHost - IBM Power services include public internet access with VPN support and options for client provided private networks such as MPLS, Metro Ethernet, Point to Point.
- **Support** – 24x7 Infrastructure support with options for operating system support and system administration.
- **Licensing** – Flexible licensing options let you bring your own or we can provide the OS licensing
- **Compliance** – Compliant with PCI, HIPAA, SOX standards
- **All system, storage and network infrastructure is owned, operated and supported by DSC.**
- **Guaranteed Performance SLA**

*Premier Cloud Provider for IBM i and AIX*
